FORMation
Mobile Form Solution

OIL & GAS SOLUTIONS

FORMation is the digital forms solution your business needs. Create dynamic, customized, mobile business forms that seamlessly integrate into your organization's systems.

We provide industry-leading solutions for replacing all your paper forms with one easy to use mobile application. Customized electronic forms allow diverse types of data to be captured in the field, even in areas without internet coverage. The data is then securely and quickly sent back to the organization without the need for further data entry. The data can be automatically extracted and exported to other applications for further processing.

HOW IT WORKS

1 CREATE
a. Build advanced custom forms.
b. Import any existing forms.

2 COMPLETE
a. In the office or in the field.
b. No internet connection required to capture, manage and maintain data.

3 ANALYZE
a. Powerful reporting security.
b. Data integrity & quality.

4 SECURE
a. Industry leading security.
b. Flexible storage options.

FORMation's mobile forms and workflow software solution will eliminate the need for paper, create business forms on the fly, and reduce input errors from field. Once you create your forms, you can distribute them to your mobile users instantly, and they can be used both online and offline allowing your users to be more productive and collect data without disruption or delay.
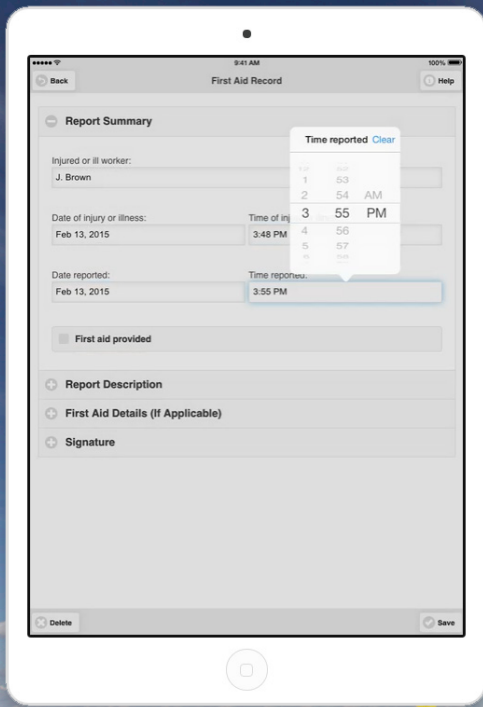

CUSTOM FORMS

Quickly and easily convert all your current paper forms into mobile forms. Whether your team is away from the office out in the field for extended periods of time or close to home, FORMation creates a solution that makes tracking and filing of critical data cost effective and accurate. Whether it's filling out daily safety forms, managing maintenance and inspections reports, or sending critical field data back to headquarters, FORMation has the right mobile form solution to meet your business needs.

CUSTOM REPORTING

The FORMation Team can develop custom reports from your field data to allow your organization to process and analyze the results in real-time as data streams in. Gain access to field data and reporting in a timely manner, which gives your company the ability to make accurate decisions based on accurate reporting directly from the field.

FORMation has helped customers transform the way they do business through enabling them to capture, analyze, report, and share information when and where they need to. We automate critical business processes through an innovative and robust mobile platform that replaces all your paper forms with an easy to use, intuitive application, in turn creating accurate reports for timely and critical business decision making.

ENVIRONMENTAL HEALTH & SAFETY FORMS

› Hazard Identification Form
› First Aid Record
› Safety Observation Form

MAINTENANCE & INSPECTION FORMS

› Inspection Reporting Forms
› Incident Reporting Forms

IN FIELD EVALUATION & PROCESS FORMS

› Production Reporting Forms
› Process & Procedure Reporting Forms

FORMation will significantly improve accuracy and turnaround time for collecting, processing and making business decisions based on field data.
