To: Justin Trudeau, PM

I am writing to you today as an Albertan respectfully requesting Bill C-69 to be suspended. The impacts of this legislation will be devastating to not only Alberta but to this Great Country of ours, Canada. **Are you taking notice yet?**

Every day that our resources are unable to go to market due to a lack of pipeline infrastructure we lose approximately \$80,000,000.00 in revenue, this is per day. Alberta & the rest of Canada miss out on the royalties of this revenue & this money cannot be re-invested back into the Canadian Oil & Gas Industry to fund projects that provide us Albertans with job stability & growth. The social safety net that was built upon this industries ability to provide these benefits will diminish & we will all suffer no matter what gender, age & ability, social & economic status we hold. As such, the Energy Sector should be taken seriously & supported appropriately by our Government by making this industry a priority. Processes need to be streamlined & expedited for the benefit of all Canadians. **Do we have your attention yet?**

The Canadian Oil & Gas Industry leads the world in Ethics, Environmental & Safety Regulations. Not only is it Canada's #1 export but is also one of Canada's largest employers. For decades we welcomed workers from across the country with open arms & gave opportunities unavailable to Canadian's back home. At the same time we contributed generously so those who stayed behind could maintain a high standard of living. We need the rest of Canada including the Government to step up for Alberta like Alberta stepped up for Canada financially, don't turn your back on the People, Resources and Industry that long supported & helped build our great country. **Are you listening yet?**

Albertans are proud blue & white collar workers who pay taxes, who want to work & provide for our families with our own hands, not go on welfare. We give to those in need, we can't do that from the unemployment line. Don't make us hold our hands out for the little amount of money in EI benefits. We are STRONG and we are STANDING UP together for our LIVELIHOOD, our FAMILIES and the betterment of our Canada. Now more than ever we need you, Justin Trudeau, to stand up with us. Fight for us Canadians, fight for our Energy Sector, be a leader.

APPROVE THOSE PIPELINES! SUPPORT OUR CANADIAN OIL & GAS INDUSTRY!

Can you hear us yet?

Sincerely,
