

HEARTLAND
COATINGS LTD.

INDUSTRIAL COATINGS

We offer a proven combination of specialized equipment and trained personnel, we install the very latest in coating systems. Utilizing modern, mobile equipment, we deliver the very best in performance – any time, any place. From new facility and pipeline construction, to plant maintenance turnarounds and shutdowns, our team of experienced personnel offer solutions to any corrosion problem by installing modern, cost effective corrosion solutions.

HLC doesn't just paint it - we install modern, cost effective corrosion solutions. By applying a layer of protective coating to steel, concrete, and other materials, we can protect your investment whether it's a brand new facility or pipeline construction, or plant maintenance turnarounds and shutdowns. Our team of experienced personnel offer solutions to any corrosion problem, and by using modern, mobile equipment, we deliver the very best in performance – anytime, anyplace.

Contractor and plant fleet maintenance painting services are available, so you can be assured that we have a system guaranteed to meet your needs.

Surface Preparation and Coatings

Heartland Coatings Ltd. is fully equipped with modern mobile abrasive blasting equipment, capable of handling any media. Our mobile units are equipped with 375 CFM, 150 PSI compressors equipped with the latest safety accessories. NACE coating inspectors are available to monitor the specified blast media and blast profile to meet your needs and specifications.

HLC offers complete coating services for atmospheric exposure, and is experienced in a wide variety of surface preparation methods, application systems and coatings. We can efficiently provide solutions to your specifications, and ensure that they will meet your Corrosion Prevention Control program (CPC) requirements.

SAFETY AND COMPLIANCE

Heartland Coatings Ltd. is committed to the health and safety of all employees, contractors, clients, and the public. Our ultimate goal is to have an incident-free environment while delivering excellent results. We will always work under the safest possible conditions. We strive to be industry leaders while exemplifying safety first.

Heartland Coatings recognizes that its most valuable asset is its employees. We are dedicated to providing and maintaining a safe and healthy work environment for all employees. We provide our employees with the most updated training in health, safety and environment. Our technicians will always arrive at your site, with current certifications in all site specific required training.

WHO WE ARE

HLC knows what we would expect if we were in your shoes, so we want to be there to help protect your valuable assets and to help you with our knowledge and expertise. HLC provides solutions that protect and prolong the service-life of your pipe, steel & equipment, in your facilities and in the field. We know that choosing the proper coating can be challenging, but our trained technicians are there to help you navigate the process and learn the important differences between each unique coating.

As your local Fort Saskatchewan coating company, we are the one stop source for abrasive blasting and industrial coatings for both pipeline and facility needs – dedicated to providing the right solutions to protect your assets. With our expertise, commitment to detail, dedication to safety, and our ability to meet your needs on-site and on-time, you can entrust your most important projects and facilities to our trustworthy and committed Service Technicians.
